

TurnPro
MAGNETIC FINGER

**MAGNETIC POWER
AT YOUR
FINGERTIP**

While working under the dash of my 1965 Corvette and repeatedly dropping screws, I reasoned that a magnet on my fingertip would be the perfect solution for this frustrating problem.

This concept developed into the unprecedented

Magnetic Finger

Magnetic Finger—an indispensable little tool for an endless variety of uses at home and in the workplace.

Just slip it on your finger and you've got one incredible, multi-faceted tool. The powerful magnet at your fingertip allows you to hold and

retrieve any small metal (*ferrous*) object with precise control, so you can complete tasks quickly and effortlessly.

3/8" x 2" Bolt

Anytime you need a magnetic grip on things, you need TurnPro's Magnetic Finger. You'll be surprised at how often you'll reach for it.

1/2" Hex Nut

Fasten bolts in difficult places.

Safely hold a nail in place.

Position a screw in a tight spot.
